YOUR
LIGHTING POINT

FREE, CREATIVE, PERSONAL

Expi Touch

Expi Glass

Expi Aluminium

Expi Metal

expi

Nea Expi is a new lighting point. Essential, dynamic, contemporary. Glass, Aluminium, and Metal cover plates offered in several colours. Three new finishes for control devices and functions: Icy White, Dark Iron or Aluminium in addition to the already existing Anthracite and White matt finishes.

Nea Expì harmonizes the latest home styles and trends. Essential, dynamic, contemporary. An exclusive design at affordable prices. Full range of functions for energy, comfort and security management. Possible integration with video-entry phone, anti-intrusion and access controls offered by Urmet Group.

expi touch

Evolution of style

Simon Urmet introduces Nea Expi Touch the evolution of the family offered in two glass versions: Black Lava and White Snow. Blue LED icons allow to locate the device in the dark. Expi Touch enlarges the style of Nea Expi with a refined combination of technique, form and intelligence.

.NR Black Lava

.BN White Snow

“The intellect seeks,
the heart finds.”

George Sand

“We live only to
discover beauty.
All else is a form
of waiting.”

Kahlil Gibran

expi touch

Expi Touch keeps unchanged
the forms and revolutionizes spaces.

A refined blend of idea and matter,
talent and technique, desire and form.

Nea Expì Touch: the future in Black and White.

Cover plate with 1 icon, 3 modules, White Snow

Cover plate with 2 icons, 3 modules, White Snow

Cover plate with 3 icons, 3 modules, White Snow

Cover plate for dimmer and blinds, 3 modules, White Snow

Cover plate with 4 icons, 4 modules, White Snow

The Control

A blue backlit icon allows to locate the control in the dark. The function activation is confirmed by the LED brightness variation.

The signature

Simon Urmet initials sign each products. Like an artist signing his artwork, Simon Urmet signs the elegance of the style.

Cover plate with 1 icon, 3 modules, Black Lava

Cover plate with 2 icons, 3 modules, Black Lava

Cover plate with 3 icons, 3 modules, Black Lava

Cover plate for dimmer and blinds, 3 modules, Black Lava

Cover plate with 4 icons, 4 modules, Black Lava

The frame

The Expì Touch cover plates are surrounded by an external chromed frame to enhance the form.

The Electronics

Adjustable electronics allows to match conventional electromechanical devices. The two-overlying icons plate, for instance, can be used to control either a light dimmer or a blinds motor.

Expì Touch + Expì. A matter of style.

The lighting point becomes art, affects the ambient atmosphere and creates beautiful, modern scenarios, full of intense character. Expì Touch enlarges the style of Nea Expì. Let's discover it together and create a unique style: YOURS!

Comfort devices

Electronic touch devices

Power sockets

“Architecture is
the masterly, correct
and magnificent play
of masses brought
together in light.”

Le Corbusier

.NR Black Lava

.BN White Snow

.GO Grey Opal

.AZ Light Blue Sky

“Style is the
image of our
personality.”

Edward Gibbon

The Glass

Natural, transparent, bright, classic,
modern. Available in four shades
that highlight the aesthetic qualities
and the possibilities of matching.

.AM Quicksilver

.BP White Pearl

.NG Black Graphite

.BL Glossy Bronze

“To choose is,
by nature,
to exist.”

Stephen Littleword

The Metal

The energy combined in a selection of colours.

The clearness of the White Pearl. The rigour of the Black Graphite.

The personality of the Glossy Bronze. The brilliance of the

Quicksilver. For a lighting point of great character.

.CS Brushed Chrome

.AS Satin Aluminium

.AK Karbon Aluminium

.RS Red Aluminium

“There exists everywhere a medium in things, determined by equilibrium.”

Dmitri Mendeleev

The Aluminium

A balanced mix of rigor and charm. Properly designed to meet the most demanding spaces requiring a special touch of elegance.

Black

Black and White?

Total Black or Total White? Seeking for a sober lighting point with focus on material or the cutting edge trend in interior architecture? The Nea system responds to market demand with its monochromatic versions.

Black or White Expi Touch for an exclusive elegance. Minimalism opens an endless possibility of combination. Play with finishes and colours and show your own personal style.

White

Point of view.

“Live with simplicity and think with greatness.”

William Wordsworth

The Functions

Nea Expi covers the needs of each modern electrical installation. The added features make the line synergetic with Urmet Group offer in several applications, such as intercom communication, anti-intrusion, access control and hotel automation.

Electronic touch devices

Protection devices

Electronic devices

Climate control

Power and signal sockets

Anti-intrusion systems

“Perfect simplicity
is unconsciously
audacious.”

George Meredith

Icy White

Aluminium

Dark Iron

White

Anthracite

Functions and devices.
Point of strength.

Five finishes for control devices and functions.
Three glossy finishes: Icy White, Aluminium and
Dark Iron. Two Matt finishes: White and Anthracite.

Compact Design An endless care for details.

Nea Expi Touch. Essential,
dynamic, contemporary.

A stylish chromed outer frame
contours the lighting point in the
glass and aluminium versions.

Blue LED icons allow to locate the
device in the dark. The brightness
of the relevant signal changes to
confirm the function activation.

The cover plates thickness
is extra-slim: 6 mm in metal
versions, 8 mm in glass
and aluminium version.

Starting point: attention to details.

Target point: a design without compromise.

The edges are bevelled at 45° degree, for a unique design of the plate. Details make the difference.

Tempered glass like for car glass, to ensure the maximum safety in case of accidental breakage.

All cover plates are distributed with chromed frames.

Optional inner frames are available in two versions: Black or White.

nea

An open System.

Nea translates the latest market trends into an open system that harmonizes with different home styles. Three design, four aesthetics are now available, with the new additional Expi Touch, Expi, Flexa and Kàdra lines. The performance level of a state-of-the-art electrical installation and integration with Urmet Group products combine to meet every installation requirement for residential, commercial and public.

Three styles,
four aesthetics
to suit different
home styles.

The clear mounting bracket combines pleasant aesthetics and functionality. The heart of a solution system that make Nea an open flexible product line for residential applications. Control devices and functions come in five finishes. Three glossy finishes: Icy White, Aluminium and Dark Iron. Two matt finishes: White and Anthracite.

Nea Expì Touch
Evolution of style.

Nea Expì
Democratic design.

Nea Flexa
Accent is on simplicity.

Nea Kàdra
Unique character.
